

Ariana Grande's Lengthy Dating History

By Sophia A.

Popular and trendy musician, Ariana Grande has quite a long list of men she's dated. As of right now Ariana has publicly dated 11 men. Some of these relationships were long, some short, others sweet, another sour, let's look into some of them.

The earliest one we'll look into in this article dates back to 2012, when Ariana and Jai Brooks attempted a long distance relationship. Unfortunately their relationship ended in 2014, after Brooks accused Grande of cheating with Nathan Sykes. In a post on social media he wrote "Nathan may be a top bloke or a sweet person, but what he did was just completely wrong. He interfered with my life and did not respect my relationship; his actions caused me to not be able to sleep at night and not see the world as a beautiful place..." Ariana dismissed the claims saying they were "hurtful and shocking". However it was revealed that Nathan and Ariana did date for four months in 2013.

Moving forward, Mac Miller and Ariana hit it off in 2016 to 2018. This is by far one of Ariana's most memorable relationships for the public. They dated for two years, although Ariana admitted he wasn't perfect she does say "He didn't deserve the demons he had." After Mac Miller's death, Ariana went on to write the song "thank you next" as a tribute to him. In the lyrics she wrote "Wish I could say, 'Thank You' to Malcom / 'Cause he was an angel."

Still in 2018 Grande began dating American actor and comedian Pete Davidson. Their relationship was short lived and they got engaged after only weeks of dating. Ariana made a reference to their breakup in her mean girls themed "thank you next". *Popsugar* says "His page read: "I love u always" and "Sry I dipped."

Fast forward a few years, in 2021 Dalton Gomez and Ariana got engaged after dating for some time in May of 2021. *Us Magazine* says "It was tiny and intimate — less than 20 people," her rep told *Us*. "The room was so happy and full of love. The couple and both families couldn't be happier." Their happiness didn't last long as they got divorced in July 2023 "A source exclusively told *Us* at the time that the estranged couple had "been having some issues for months now" and initially split in January 2023. In September 2023, Grande officially filed for divorce."

Now, what do Ariana's exes say about her? Starting with Pete Davidson an article by *nicki swift* says "Pete Davidson made his mark on Ariana Grande, so much so the star even dedicated her 2018 song "Pete Davidson" to the "Saturday Night Live" star. He also got a personalized line to call his own after Ariana Grande dropped "Thank U, Next" with the lyrics, "And for Pete, I'm so thankful." As far as breakup ballads go, Davidson definitely lucked out with the mention."

As we all know Ariana's song "Thank you next" included many exes for all but one. Nathan Sykes, the uninvited one says he was happy to be left out of it. In an interview when the topic was brought up he said, "That's good!" with a laugh, adding, "I hear it's amazing and that's fantastic."

While most of her exes seem to have moved on fairly easily, Dalton Gomez had a hard time getting past their relationship. *Entertainment Tonight* says "Dalton is having a hard time after his breakup with Ariana. It has been a difficult time for him because he wanted to make things work." He even went as far as trying to visit her in Europe, but was denied as Ariana had already moved on from him.

Although these aren't all of the men Ariana Grande has dated, the history behind only four is evident. From dating to engagement to divorces. Her dating history is quite long and the history/impacts both partners have left on each other is undeniable.
